GINAR ELEMENTARY

"No bad stuff here! Just normal school stuff!"

P-Please leave me alone!

After what you said about my mother?

Fat chance!

I- I'm sorry!

Please don't hurt me!

Heh.

I'm gonna do more than "hurt."

ASH

HEY! LEAVE HER ALONE!

PUNCH!

If I see you here again I'm gonna get my knife!!!

Hey kid, name's Cynthia, but you can call me Synth!

What's yer name?

Ch-Charlotte-

PRESENT DAY, 12:49 PM

Gosh, Chilli & Synth have really been at each other's throats lately.

It's really concerning...

I mean to be fair Synth definetly deserved that punch in the face.

Oh yeah definetly but like...

Chilli's had so many close calls w/ Principal Keylime-

I don't wanna see her get kicked out of school...

Oh Keylime's not gonna do that-

Chilli would have to do something REALLY bad for THAT to happen.

EVERYONE EVACUATE!

THE SCHOOL'S IN DANGER!

Chilli what are you-

MS HIPP THERE'S NO TIME TO EXPLAIN WE NEED TO-

Hello students. Pardon the interruption.

The need for souls is rising.

A new era of Parasite Middle School begins today.

Prepare yourselves to be sacrificed.

OKAY UH, N-NEW PLAN!

IN CASE OF SUPERNATURAL STUFF

LOCKDO

WINDOW SLAM

VENT SLAM

What are you doing?! We can escape through the windows!

We're not leaving the other students to fend for themselves against a deadly fungus!

DOOR SLAM

So you're just gonna lock us in here? They're goners, Chilli! We still have a chance!

CHILLI WHAT THE HECK IS GOING ON?!

E-Everything's fine! Just have a sssmmaaaaall li:l problem, but I know how to-

Ugh Chilli, we don't have to lie to them-

So uh an infectious fungus is taking over the entire school and now we are all gonna die and also its not my fault in any way.

N-NO WE'RE NOT!

WHAT?!

Again, I know how to fix this!

I- I prepared for this!

Just let me organize my thoughts~...

Also for the record: it is at least partially your fault, Synth.

Uck, typical Chilli, blaming everyone but herself.

You know, maybe if you took responsibility for your actions, we wouldn't be in this s[illegible] right now.

PLEASE.

STOP.

TALKING.

We are so very anxious right now, and your constant blabbering is NOT helping.

Oh don't pretend you have something to say, you know I'm right!

I- It's Chilli that's in the wrong!

Look, I know Chilli. I've known her for awhile. She's screwed up plenty. We're not denying that.

But I also know she's responsible, including right now. She *tries*. What have YOU done since running into this room?

I uh- I suggested the windows-

GOD YOU SUCK!

QUIT BEING A DICK!

A**HOLE!

PEE BUTT!

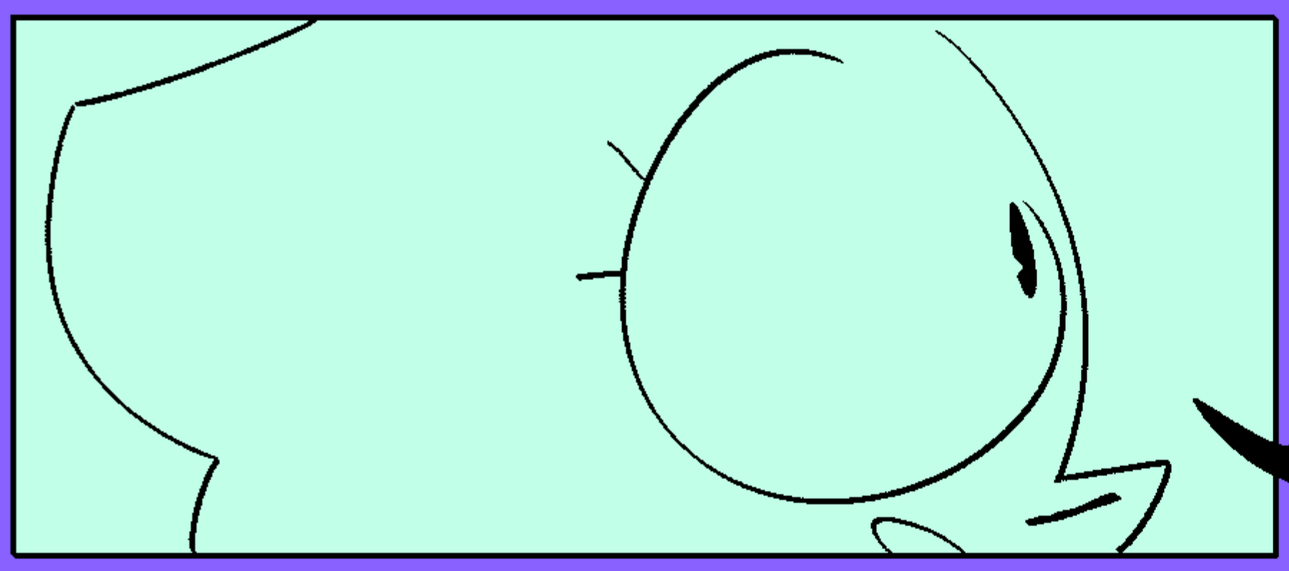
YOU KNOW WHAT? FINE! HATE ME ALL YOU WANT!

BUT WHEN CHILLI ENDS UP TURNING YOU ALL INTO MUTANT-DEMON FREAKS, DON'T COME CRYING TO ME!

I'm gonna find someone who ACTUALLY respects me!

CHILLI OPEN THE DOOR!!

No



Alright, so here's the plan...

So in my locker, I have a jar containing a cure powder. When mixed with water, the powder turns into the cure for the fungus.

Unfortunately, my locker is the other side of the school, and considering how quickly the fungus is spreading, most of the school is probably already infected.

We'll have to be VERY careful when traveling. Once the cure is obtained, we need to go to the maintenance room & mix the powder w/ the water supply. Then we need to trigger the sprinklers, and BOOM! Day saved!

The fungus should dissolve, and everyone will be back to normal!

Anna & Tammy, you're coming w/ me!

YEA YEA!!

Sweet!

Ms Hipp, watch over the rest of the kids!

Eh, okay

WOOHOO!

YES!

POGGERS!

Alright then, its set!

We're gonna defeat this fungus, and save the school from total destruction!

Hm.

They like Chilli-

-but they hate me.

But if I GO with Chilli-

maybe THEN they'll like me~

You know Chilli, maybe it would be best if I came along!

...why?

Well when ya really think about it, it is partially my fault the fungus spread.

It would only be fair to fix my mistakes!

...but I thought you said-

People change Chilli, its human nature.

HHH

It IS partally your fault-

Fine, but we're keeping an eye on you. We don't trust you to not wander off on biohazardous school-grounds.

I know you're trying to plan something. I've known you long enough to recognize the look in your eyes.

Whatevs!

Now before we leave, you guys need protection.

My fur will probably protect me fine, even if its not perfect.

You guys aren't so lucky-

OH! I have an idea!

LATER

It's a good thing Ms Hipp still had some old fursuits in her closet!

I hate this.

So. MUCH.

fursuitscheap.com

Hmmm

Gettin a 1:1 bit nervous...

Yea Tammy's right, you need to put your head on, Synth.

I'll be fine.

I need to be recognizable anyway.

Wwhat.

You know, so like-

People know that I helped out-

People can look at me and say "oh look, its the girl that helped stop that terrible fungus!"

It's really not that hard to comprehend, Chilli.

We're not... doing this for recognition...

We're-

Ugh, Chilli you're always doing things for recognition!

Probably the only reason why you try to save the cove so much.

"Hi I'm Chilli! Defender of Heart Attack Cove! I'm so cool & amazing! Gimme all of your precious attention!"

"Wowwee I stopped Bigfoot from assasinating the mayor! Poggers!"

"I punch people in the face, but its okay because those people suck! They have no friends!"

"They suck!"

Honestly Chilli you're SUCH an attention w[redacted].

Let's feed her to the fungus.

IDK why you

Cynthia.

Charlotte.

Do you know what happens when fungus slime continues to rest on human skin?

It starts to eat at it.

The bodies are still inside the fungus monsters.

But after about 24 hours, the bodies will be completely destroyed.

They're dying, Synth.

We don't have time to be stupid, Synth.

Jeez, alright I get it. Ya don't have to be so p[illegible] with me, it's not like I wanted this to happen.

Yes you did, Synth.

You specifically said during lunch you wanted to do exactly this.

Okay, MAYBE I said some things that-

You know what, Synth? I'm done. Let's just move along.

Synth, if you're making fun of my friends again, I am going to slit your-

Cuz I am about this close to losing my mind-

oh wait s[illegible].

Oh my god! Behind you! A horrible creature!

Oh god...

Uhh- T-Tammy and Anna, fight off some of the eye tentacles, I'll be right back!

Got it!

PUNCH!

SMASH!

Where are you going?!

TO FIND SOMETHING TO STAB IT WITH!

This specific fungus creature is a cluster variant, made up of smaller mono varients, also known as regular fungus monsters!

Its weakness is the middle eye!

ANNA!

TAMMY!

FORMATION CZ!

WOOSH!!!

SHTAB!

Chilli!! Are you okay??

Y-Yea, I'm f-
